

I-5 SIGN BRIDGE INSTALLATION

SUMMER 2026

**OVERNIGHT CLOSURE EXPECTED ON ALL LANES
OF I-5 IN BOTH DIRECTIONS IN JULY 2026**

EXACT DATE TO BE ANNOUNCED

See info on back page to sign up for alerts today

All lanes of I-5 northbound and southbound will be closed overnight for up to 14 hours from 10 p.m. on a Saturday to noon on the next day (Sunday). We will reopen I-5 as soon as work is complete.

During the closure, crews will remove the existing sign structure and install a new sign structure (the "sign bridge") near the Oregon Convention Center. This sign bridge is part of planned improvements to I-5 and will support new traffic patterns.

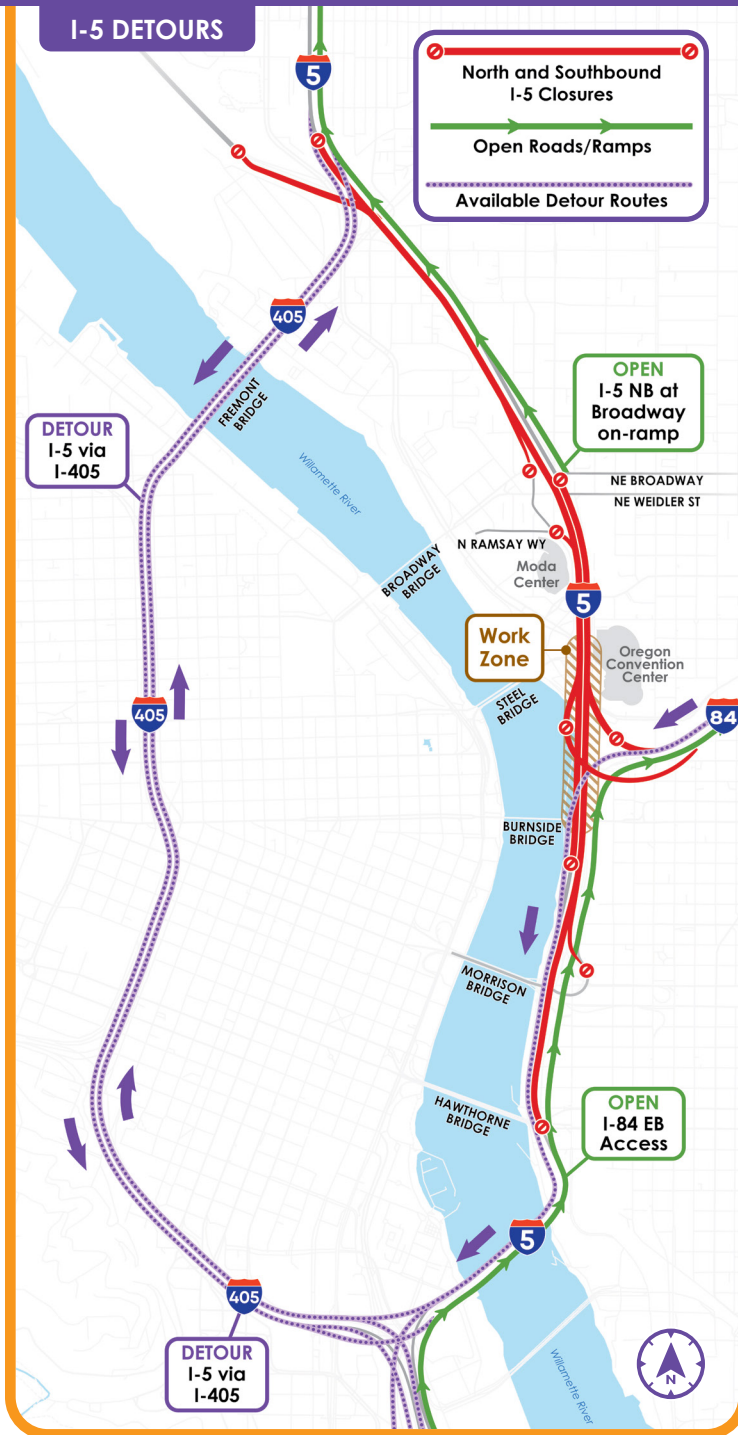

Drivers should expect delays in the area and plan ahead to avoid additional travel time.

DRIVERS CAN EXPECT:

- ⊘ I-5 southbound to be closed beginning at Exit 302B to the Fremont Bridge and I-405.
- ⊘ I-5 northbound to be closed beginning at Exit 300 to I-84.
- ▶ I-405 is the detour route around the closure (see the back page for detailed detour information).
- ▶ I-84 westbound will be routed to I-5 southbound. Drivers will detour onto I-405 to access I-5 northbound.
- ✓ Ramp to I-84 eastbound from I-5 northbound will remain open.
- ✓ Ramp from I-84 westbound to I-5 southbound to remain open. All lanes of I-5 southbound will be open beyond this point.
- ✓ Ramp from Broadway to I-5 northbound to remain open. All lanes of I-5 northbound will be open beyond this point.

I-5 DETOURS

I-5 DETOURS AND TRAVEL OPTIONS

- ▶ **The detour for I-5 travel in both directions will be I-405.**

For southbound travelers, the detour will start at Exit 302B to I-405/Fremont Bridge.

For northbound travelers, the detour will start at Exit 299B at the South Waterfront to I-405.

- ▶ **Regional traffic is encouraged to use I-205 as an alternate route.**

Options to help you navigate the closure:

- Plan your trip ahead of time and access travel navigation tools like ODOT's TripCheck or other online mapping tools.
- Consider your flexibility to avoid travelling on Sunday morning, alter your travel time to later in the day, and/or arrange appointments to times before or after the closure.
- Choose a different travel mode such as MAX light rail, streetcar, bus, bike, walk or carpool.

When travelers who have flexibility adjust their travel plans, it helps keep the road network moving for those who must travel, including emergency responders, mobility-impaired travelers, service workers and freight drivers.

ABOUT THIS PROJECT

The I-5 Rose Quarter Improvement Project will improve safety and mobility at the state's top bottleneck, while strengthening local connections and supporting long-term community revitalization in the Albina neighborhood.
